

CHICAGOWATERPROS

YOUR WATER, PROFESSIONALLY PERFECTED

Pure-Tec Platinum QCRO & QCUF Drinking Water Systems

Customized Drinking Water

Water conditions can vary even in the same community. The Pure-Tec Platinum QCRO System can be configured to meet your specific requirements. There are ten interchangeable filters with a variety of treatment options that can be tailored to local water conditions, so your water is the best it can be.

If you're concerned about RO reject water or RO drain line makes installation difficult, we offer UltraFiltration (UF).* The UF does not have a drain line to run, your cost is lesser than RO and there is no waste.

The innovative QC twist and lock design makes service simple. Twist off the old cartridge and twist on the new. No messy sump removal. Pure-Tec Platinum HP systems make drinking water better and life easier.

The innovative QC twist and lock design makes service simple.

Product Specifications

A Sediment Filters. Screens out sediments and particles. Various micron size filters are available.

B Carbon Filters. Reduces elements that cause water to taste and smell unpleasant, including chlorine taste and odor.
