YOUR WATER, PROFESSIONALLY PERFECTED

CWP-Hydramax 89 Water Softener

The Trouble with Hard Water

Hard water (calcium & magnesium) is a common problem for many homeowners and businesses. When hardness minerals are combined with heat it forms troublesome scale. Scale causes costly build-up in your plumbing, water heater and other water using appliances. When combined with soap, the minerals form soap curd or scum that makes skin dry and itchy, hair lifeless, laundry dull and builds up on fixtures.

Benefit From Softer Water:

-  Silky shiny hair, Soft supple skin
-  Use up to 75% less soap
-  Lower water heating cost by 29%
-  Save as much as \$479 annually*

*Potential savings based on Water Quality Research Foundation Battelle Institute Study

Upflow Regeneration

drives the hardness minerals up through the already depleted resin and out to drain - saving both salt and the unused portion of the resin for future use.

NSF Certified electronic control valves with proven piston, seal & spacer technology and rotating 'no touch' diagnostic backlit 16 character LCD display

Upflow Regeneration with Optimal Precision Brining provides highefficiency performance and lowest possible salt usage.

Meter immediate, meter delayed, meter override, vacation and calendar clock modes

Self charging capacitor keeps date / time of day for 48 hours while programming remains in permanent memory

NSF Certified high-gloss pressure tank

WQA Gold Seal 8% cross-linked cation resin

Heavy-duty brine tank / cabinet constructed with NSF Certified high-density polyethylene.

Soft water brine tank refill

Brine safety valve for added overflow protection

Space saving bypass with integrated turbine meter

Lifetime Warranty on Tanks

C USA

WQA Tested & Certified to NSF/ANSI 44 for effective reduction of hardness as verified & substantiated by test data

Cabinet Model

CHICAGOWATERPROS

4320 Winfield Road, Suite 200
